

Szenarios

(i.e. Climate Szenario)

Strategies

(i.e. climate protection, climate protection with biomass)

FOBESIMO

Model Enterprise

Market data

(Test Enterprise Network-Forestry)

Operating record

(Institute of International Forestry and Forest Economics)

Stand data

(NFI II)

Site data

(PIK, NW-FVA)

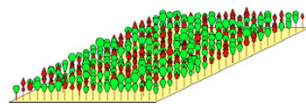

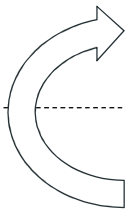

Management

Implementation of different strategies with measures
(i.e., choice of tree species, thinning strategies, etc.)

Simulator

Forest Enterprise Simulator
(Strugholtz-Englert)

Tree Growth Simulator
(SILVA 2.4)

Results

(i.e., opportunity costs, raw wood volume, CO₂-Volume)
